New lamps in the Tammel lighting range.

jet presents Tammel base en Tammel nimbus at Maison & Objet Paris '14.

Designer Jet de Bruijn creates interior products under the label jet. Products with clean lines manufactured from pure materials. The 'Tammel' lighting range is a reference to her childhood, Tammel being the name of the farm where she grew up. This is where her predilection for craftsmanship and the application of wood and steel originates. jet is synonymous with design, expressed in powerful simplicity, honest quality and attention to detail.
